The German Arbitration Institute (DIS) provides a complete list of all members on its website (www.disarb.org). The entry in the Online Directory of Members takes place with the accession to the DIS.

Numerous members have furthermore published individual listings as an Extended Profile (in German and/or English) which inform e.g. on professional specialization and arbitral experience of the members.

Extended Profile

In addition, members can be purchased and activated by the members at any time via the Member Service. The price of an Extended Profile (including a photograph) is

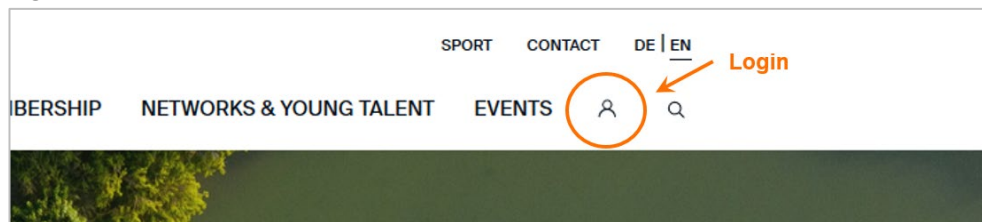

125,00 € (one time, per language) plus VAT

Please find some information on creating an Extended Profile:

To create an Extended Profile please log on to the DIS homepage in the members' area. Your log-in data are sent to you by e-mail upon registration as a member.

You can find the login to the member area via the "**member symbol**" in the top right corner of the main navigation. It is visible at all times and therefore always directly selectable. This also allows you to log in as a member at an event. The login access is done by entering the e-mail address and the password.

Login access

If you like, a photograph can be published as well. To this end, please transmit a graphic data file (format: .jpg / .gif / .png) to the DIS server

Please find a sample Extended Profile with the possible categories on the next page. The operating instructions "Member directory and area" will support you in setting up your Extended Profile.

For further information please contact:
